

Project Title

Climate Finance Training Programme

Implementing Partner

ESAMI, CISL, IIED

Donor

FSD Africa

Value (in £)

Implementation Period

November 2020 to March 2025

Countries Covered

Sub-Saharan Africa

Project Description

Establish a twinning arrangement between the UK and Kenyan/East African/African academic institutions to provide climate finance training to develop the capacity of local and regional policymakers, academia, regulators and financial market participants.

Target Results

- Development of the capacity of policymakers, academia, regulators, training service providers and financial sector professionals on climate finance
- Increased investments into climate-resilient projects, which lead to sustainable economic growth and employment creation
- Creation of a centre of excellence in green finance in the region

Progress

- **Unlocking public climate finance for sustainable business transformation**

Training delivered to the first cohort of 22 participants across Africa from 6th to 10th December 2021.

- **The Africa Climate Finance Leadership Programme**

Training delivered to the second cohort of 22 participants across Africa from 7th to 11th February 2022.

- **The Africa Climate Finance Leadership Programme**

Training will be delivered to the third cohort of participants in the last quarter of the 2022 calendar year.
